Impacted Manual sections:	
All sections of Manual 14A are affected. Manual 14G is comprised of sections from Manual 14A that are specific to Generator Interconnection Requests.	
Reason for change:	
Current Manual 14A mixes the process for application as a New Service Customer for any customer type with specific ‘Generator’ customer interconnection requirements. A separate Manual exists for ‘Upgrade and Transmission Customers’ (Manual 14E). No separate Manual exists for ‘Generator’ customers specifically. New Manual 14G is being created as a manual specific to Generator Interconnection Customers. Manual 14A will retain information for any New Services Customer type.	
Summary of the changes:	
<ul style="list-style-type: none"> • Revise 14A: “New Services Request Process” General application, study, and agreement process for interconnecting any customer type. • Create New M14G: “Generation Interconnection Requests” Interconnection requirements, study/agreement process, and rights for generator customers. <p>New Manual 14G is being created as a manual specific to Generator Interconnection Customers. Manual 14A will retain information for any New Services Customer type.</p>
