**UGI Utilities Inc. Electric Division (UGI)
List of Approved Transmission Contractors & Vendors**

Approved Contractors for Transmission Substation & Line Engineering Design and Construction

Engineering/Design & Construction:	Utility Line Construction Services, Inc. (ULCS); Henkels & McCoy, Inc.; FMP Inc.
Substation Engineering/Design Only:	Schweitzer Engineering Laboratories (SEL); Utility Engineers PC; United Electric Systems
Testing/Maintenance:	Schweitzer Engineering Laboratories (SEL); American Electrical Testing Co. (AETCo)
Transformer Field Service:	Dymax; Ground Support LLC; Power Substation Services

Note: UGI may approve other qualified transmission/substation contractors for UGI-owned facilities as long as the design engineering and technical field construction oversight is performed by UGI.

Approved Vendors/Manufacturers for Major Transmission/Substation Equipment

Breakers

ABB, Mitsubishi, Powercon

Relay Protective Devices
Schweitzer, ABB

Disconnects

Cleveland Price, S&C Electric, Southern States, LLC

Capacitors
Cooper, GE

Conductors (Transmission Overhead) Southwire, CME, Hendrix, Nehring

Reactors
Trench, Alstom

Substation Bus Conductors (Pipe Bus & Wire)

Pipe Bus: ALCOA, Bloomsburg Metal
Wire: Southwire

PTs
Trench, Ritz/AREVA
T&D, ABB, GE

Transformers

GE Prolec, Waukesha, Hyundai, Virginia Transformer, Delta Star, Niagara

Arresters
Cooper Power Systems,
Joslyn, Hubbell, Maclean
Power Systems

Insulators

Sediver, Lapp, MacLean, Victor, Locke, Salisbury

Annunciators
SEL, Ametek

Bushings

Transformer – ABB
Circuit Breaker – ABB, Mitsubishi, GE

The list of approved contractors and vendors applies to UGI transmission facilities only.
