sustaining regulation

Summary of the changes:

around dynamic regulation resources performance in operation especially during the period of a need for

Regulation Performance Impacts Proposal:

- Implement a change to the benefits factor curve to reduce the amount of RegD that can be cleared. This will help to align RegD procurement with operation practice.
- Implement a tie-breaker for benefits factor calculation using resource historic performance score for RegD with initial adjusted total offer cost of \$0 due to self-schedule or \$0 regulation offer with no potential for lost opportunity cost. This will help to reduce or eliminate over-procurement of RegD
