

PC Special Session: Storage as a Transmission Asset Monthly Progress Report

10/26/2020

1. Storage as a Transmission Asset (SATA)

Issue Status

The PC Special Session: Storage as a Transmission Asset (SATA) is finishing package proposals and will review poll results at meeting on October 22.

Target Completion

12/31/2020

Progress Update

During the September and October meetings, the group finished design component and solution option development as well as solicited package proposals. A poll was opened to gauge stakeholder consensus on the proposed solution package and will be reviewed at the October 22 meeting. The proposal will be brought to the Planning committee on November 4 for a first read.

Additionally, a panel was held at the September 25 meeting to discuss storage addressing specified transmission needs through the creation of a specialized ancillary service. This was an informational panel that may inform a potential future Phase 2 SATA Issue Charge.

Action Requested (if necessary)

None
