

# Interconnection Process Reform Task Force (IPRTF) Monthly Progress Report

February 22, 2022

## Interconnection Process Reform

Interconnection New Service requests have drastically increased over the past few years. The Interconnection Process Reform Task Force (IPRTF) will discuss challenges related to the interconnection process and look for opportunities to improve the process via the Consensus Based Issue Resolution (CBIR) process.

### Problem Statement

### Issue Charge

Problem Statement/Issue Charge approved at Planning Committee on April 6, 2021

### **Issue Status**

The IPRTF is working on solution packages for a new interconnection process and solution packages to determine how PJM will transition to a new process.

### **Target Completion**

The IPRTF is expected to be completed in the first quarter of 2022.

### **Progress Update**

The transition packages were voted at the Planning Committee (PC) on Tuesday, February 8, 2022. An additional package, Interconnection Customer (IC) Coalition was provided for consideration to the PC; this package did not come though the IPRTF.

The PJM packaged was endorsed and will be the main motion at the MRC.

Here are the voting results:

<b>Package</b>	<b>Yes</b>	<b>No</b>	<b>Abstain</b>
PJM	218 (91%)	22 (9%)	14
National Grid Renewables	6 (3%)	200 (97%)	48
IC Coalition	69 (34%)	134 (66%)	51

The new process and transition packages, along with the OATT language updates, will be brought to the March 23, 2022 MRC for a first read.

### **Action Requested**

PJM Legal and Planning personnel are working on the OATT language updates. The language will be reviewed with the IPRTF on March 4, 2022. Please register and attend the upcoming IPRTF meetings in March to review the OATT language changes and provide any feedback you may have.
