

Distributed Resources Subcommittee Monthly Progress Report

11/13/2023

1. [DR/PRD Compliance Construct for Weather Sensitive Load](#)

Issue Status

DISRS put this issue on hold

Target Completion

Unknown

Progress Update

No updates

Action Requested (if necessary)

No action requested

2. PJM's FERC Order 2222 Compliance Filing

On March 30, 2023 PJM requested an extension on the 60-day compliance filing deadline to address the directives in the March 1 Order, from May 1, 2023 to September 1, 2023. FERC granted extension on April 11, 2023. A stakeholder engagement on this topic had been through the DISRS scheduled meetings from April 2023 through August 2023.

Issue Status

The compliance filing was submitted to FERC. DISRS is waiting for FERC's ruling on the filing.

Target Completion

September 1, 2023

Progress Update

Review DISRS presentations for more details.

Action Requested (if necessary)

None

3. New Issue Charge to add additional energy offer parameters for Economic Demand Response

Voltus staff introduced this Issue Charge to stakeholders at May 8th 2023 DISRS meeting. The issue addressed a specific technical limitation, wherein Economic Demand Response assets cannot set key operational parameters as part of market offers to PJM. Voltus presented their Issue Charge at August 9th 2023, September 6th 2023 and November 1st 2023 MIC meetings.

Issue Status

MIC approved this Issue Charge at November 1st 2023 meeting. The MIC also approved this Issue Charge to be worked through DISRS.

Target Completion

Unknown

Progress Update

This Issue Charge comes back to DISRS with few revisions.

Action Requested (if necessary)

Attend DISRS meetings

4. New Issue Charge on Hybrid Resources Enhancements (Hybrid Phase 3)

PJM staff introduced this Issue Charge to stakeholders at November 3rd 2023 DISRS meeting. There are two parts of Hybrid Phase 3. The first part includes enhancements to existing rules for inverter-based open and closed-loop hybrid resources. The second part includes a development of new rules and requirements for non-inverter based hybrid resources (e.g., gas plus storage). PJM staff will present this Issue Charge again at December 4th 2023 DISRS meeting.

Issue Status

First Introduction of the Issue Charge and Problem Statement at DISRS.

Target Completion

2024 Q3

Progress Update

First Introduction of the Issue Charge at DISRS. Status update will be provided at the MIC.

Action Requested (if necessary)

Attend DISRS and MIC meetings
