

Cap Review Senior Task Force

This charter describes the objectives (mission) and responsibilities of this stakeholder group to complete the specific scope of work assigned by the Markets and Reliability (MRC).

Charge Summary

The <u>Issue Charge</u> states the purpose is to work with stakeholders to develop a permanent solution, if necessary, related to the temporary waivers associated with FERC dockets <u>ER14-1144</u> and <u>ER14-1145</u>.

The Offer Cap Review Problem Statement was brought forward by PJM and approved by the MRC on April 24, 2014.

Key Work Activities

- Provide education regarding the history of offer caps for cost-based and price-based offers and their drivers.
- Consider a potential change or elimination of offer caps, if it is determined to be necessary on an ongoing basis, for cost-based offers in the PJM energy markets.
- Consider a potential change of offer caps, if it is determined to be necessary on an ongoing basis, for pricebased offers in the PJM energy markets.
- Clarify the definition of offer cap with respect to incremental versus startup and no-load costs.
- Recommend changes, if any, to governing documents and manuals to effectuate the offer cap changes.

Expected Deliverables, Milestones, and Deadlines

The CRSTF should provide back to the MRC any potential changes to governing documents and manuals that would be necessary to revise offer caps for cost-based and price-based offers. The work shall be completed such that a FERC order could be obtained by December 31, 2014.

Decision Making Methodology: Tier 1, consensus (unanimity) on a single proposal (preferred default option), or Tier 2, multiple alternatives
