

Cost Development Subcommittee (CDS) Charter Update

Glen Boyle, Performance Compliance Dept.

Markets and Reliability Committee
September 17, 2020

- CDS is a dormant subcommittee tasked with developing, reviewing, and recommending standard procedures for calculating the costs of products or services
- CDS has been dormant since June 2013
 - Any issues had been moved to MIC to address
- PJM and IMM see need to restart CDS meetings to address:
 - M-15 clarifications and biennial review
 - VOM and Fuel Cost Policy clarifications
 - Educational topics
 - Emergent cost-related issues

- PJM has revised CDS charter to report to MIC (instead of MRC)
 - Most issues are handled today at MIC
 - CDS would not vote; recommend issues to MIC for voting
 - Allow for wider socialization of issues prior to issues going to MRC
- Other minor charter updates
