

Alternate Proposal

Manual 11

- 2.3.1 ... PJM will target intra-day resource commitment runs to be commensurate with the three (3) existing intra-day NAESB gas nomination cycle deadlines. Section 2.5.4 provides details on the timing of these intra-day unit commitments.
- **Not 2.3.3**
- 2.5.4 Intra-Day Reliability Assessment and Commitment Runs
 - PJM may perform additional resource commitment runs, as necessary throughout the entire Operating Day, based on updated PJM load forecasts, updated resource parameters or changing system conditions. PJM will target three (3) intraday reliability commitment runs that align with the three (3) North American Energy Standards Board (NAESB) Intraday Nomination Cycle deadlines. To the extent that a natural gas generator is identified as being needed to operate during any of the 3 runs, PJM will endeavor to provide notification to the resource in advance of the time identified in column C in the table below.

A	B	C	D
<u>PJM Reliability Commitment Run Target Time (Eastern)</u>	<u>NAESB Intraday Gas Cycle</u>	<u>NAESB Gas Nomination Deadline (Eastern)</u>	<u>PJM Target Dispatch Period Associated with Reliability Commitment Run</u>
<u>9:00</u>	<u>Intraday 1</u>	<u>11:00</u>	<u>Same Day Evening Peak</u>
<u>14:15</u>	<u>Intraday 2</u>	<u>15:30</u>	<u>Same Day Evening Peak</u>
<u>18:00</u>	<u>Intraday 3</u>	<u>20:00</u>	<u>Next Day Morning Peak</u>
