

Winter 2024/25 Fuel Inventory Data Request

Eli Ramsay, Sr. Engineer -
Generation

Operating Committee

December 5, 2024

Intended to track fuel (coal and oil) and Non-Fuel Consumable inventories through the winter 2024/2025 period

Establishes winter starting fuel inventory in December with required updates every 30 days thereafter for January, February and March

Establish maximum on-site oil storage capacity

Increases situational awareness for PJM Operations, but does not replace necessary reporting in Markets Gateway

Initial gathering of starting inventory from December 5th through December 16th

Following initial period capturing starting inventory, the request will remain open through duration of winter period to provide PJM with continuous inventory updates

Inventory updates are requested during the first week of January, February, and March respectively

Emergent fuel supply issues should be communicated as soon as possible to:
GenOutageSupport@pjm.com

Winter 24/25 Generator Fuel Inventory Data Request

12/5/24
