Order 1000 Lessons Learned and OA Administrative Changes

PJM is advising members that PJM will be filing Operating Agreement changes that were previously endorsed in 2016. The administrative changes, which resulted from Lessons Learned meetings, address pre-qualification for entities (require 3 year update), clean up on timing of steps for Designated Entity designation and agreement execution, and alignment with CTOA for designation/acceptance. The changes as endorsed can be found under the Members Committee meeting materials of February 25, 2016 materials. PJM anticipates the filing to be made no later than April 2, 2018. PJM will be contacting the pre-qualified entities directly regarding updating prequalification submittals to ensure no disruption to participation in proposal windows.

PJM Transmission Owner Consultation With PJM Stakeholders Regarding Compliance with FERC's Order in Docket Nos. EL16-71-000 and ER17-179-000

On February 15, 2018, the Federal Energy Regulatory Commission issued its, "Order Accepting In Part Proposed Tariff Revisions And Requiring Tariff Revisions Pursuant To Section 206" in Docket Nos. EL16-71-000 and ER17-179-000, Monongahela Power Company, et al, 162 FERC ¶ 61,129 ("February 15 Order"). Pursuant to Section 206 of the Federal Power Act, 16 USC § 201(e), the February 15 Order directed PJM and the PJM Transmission Owners to make a compliance filing within 30 days to incorporate certain specified changes to Attachment M-3 of the PJM Tariff proposed by the PJM Transmission Owners and to Schedule 6 of the PJM Operating Agreement establishing minimum number days between certain meetings and activities in the planning process. In all, nine different minimum time periods need to be established and incorporated into Attachment M-3. The compliance filing is due on March 19, 2018. The February 15 Order directed the PJM Transmission Owners to propose the number of days for each time minimum period after consultation with stakeholders. After consultation with PJM regarding the schedule of the overall RTEP planning cycle and the timing of certain milestones within the planning cycle, on February 28, 2018, PJM sent notice to stakeholders outlining the PJM Transmission Owners proposal. The minimum time periods proposed are designed to complete the consideration of Supplemental Projects in time for the PJM Board meeting to approve the Regional Transmission Expansion Plan in July and in subsequent RTEP approval cycles throughout the year. The PJM Transmission Owners are interested in stakeholder input and comment on these proposed minimum time periods. Written comments on the proposed minimum time periods, including, if the commenter so desires, a version of the Attachment marked to show changes proposed by the commenter, may be submitted for consideration by email to: (David.Anders@pjm.com) on or before 5 pm, March 9, 2018.
