Save the Date

➤ 2024 NERC-NATF-EPRI Annual Transmission Planning and Modeling Workshop

➤ November 19 and 20, 2024

1:00 p.m. – 5:00 p.m. Eastern

➤ [Registration](#)

Request for Comments

- Modifications to Section 1600 Data Request for Transmission Availability Data System (TADS)
 - Comments due: November 25, 2024

[TADS Section 1600 Data Request Materials](#) [Comment Form](#)

All comments are due by 8:00 p.m. EST on November 25, 2024, and must be submitted in an electronic document to tads@nerc.net using the comment form at the link above.

NERC's Milestone 3 Projects Highlight and Address Scope of Issues Related to Current State of Model Quality

NERC's [Order No. 901 work plan](#) includes four milestones designed to meet FERC's directives within the specified timeframes. Milestone 3 focuses on developing and filing standards that enhance data sharing and model validation for all IBRs. This milestone has a filing deadline of November 4, 2025, with a full implementation target of January 1, 2030.

Key Milestone 3 Takeaways and Engagement Opportunities

- **Industry Engagement:** Stakeholders are encouraged to engage with the drafting teams in early 2025 to facilitate a timely November 2025 filing.
- **Comprehensive Approach:** While not all projects directly address Order No. 901 directives, they are essential for creating a cohesive strategy for modeling validation and data sharing within NERC's Reliability Standards.
- **Collaborative Updates:** NERC's drafting teams will continue to collaborate and provide regular updates.
