DLCO Needs

Stakeholders must submit any comments within 10 days of this meeting in order to provide time necessary to consider these comments prior to the next phase of the M-3 process

DLCO: Supplemental Expressway Expansion

Need Number: DUQ-2019-001

Process Stage: Needs Meeting

Date: 2/20/2019

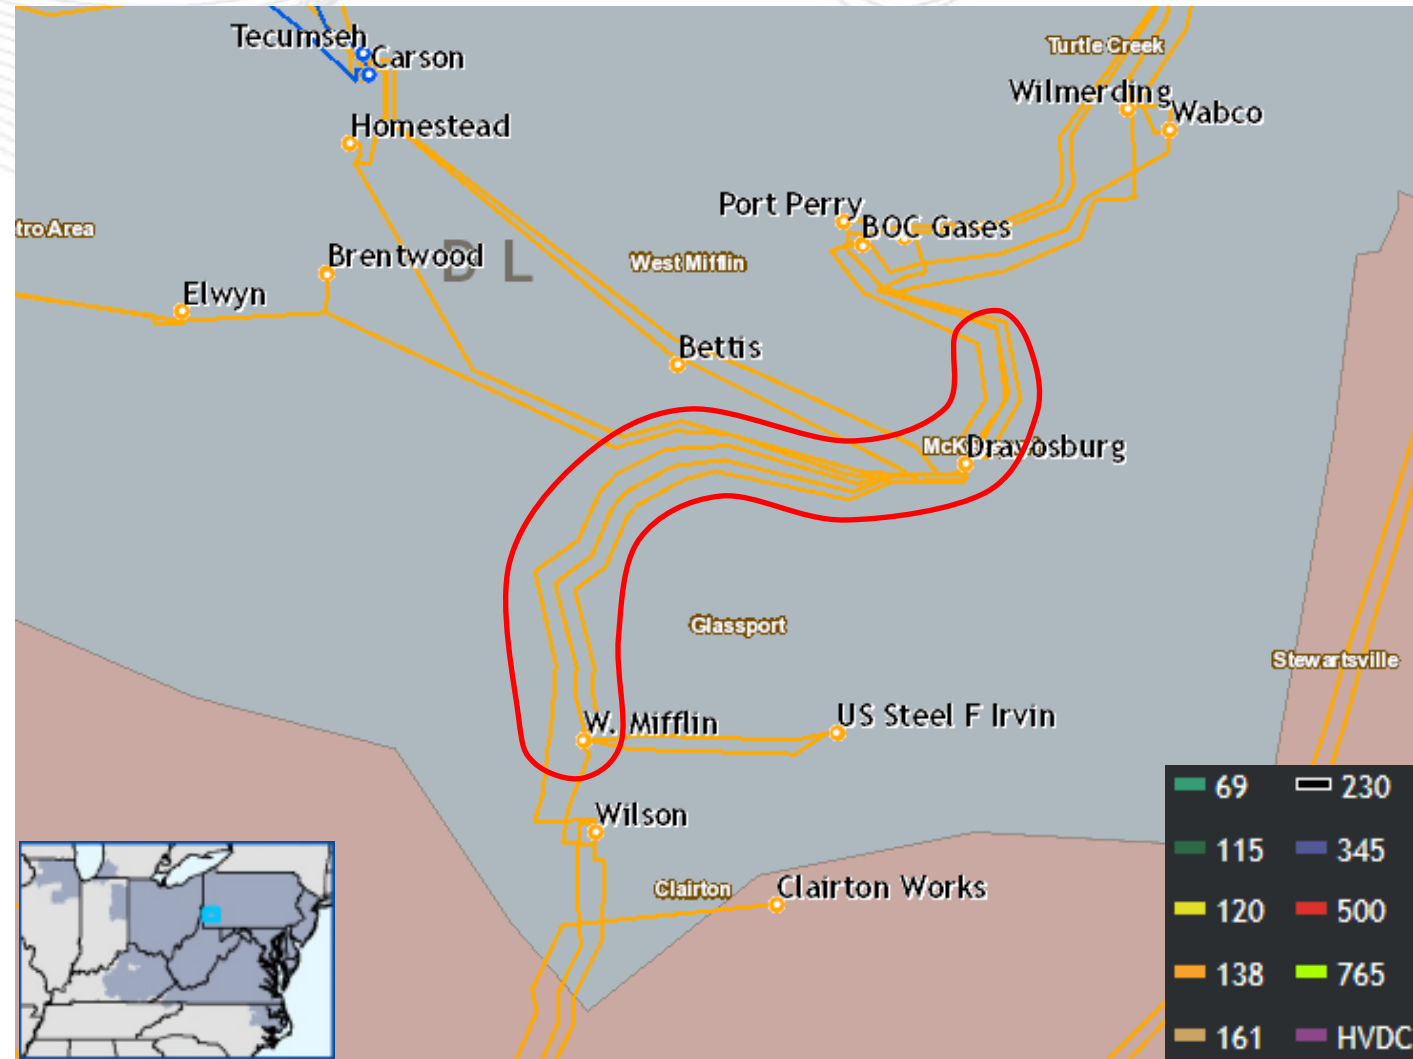

Supplemental Project Driver: Other

Specific Assumptions Reference: Pennsylvania Turnpike Commission Expressway Expansion Project to Encroach Existing Transmission Right of Ways

Problem Statement:

The Pennsylvania Turnpike Commission (PTC) has informed Duquesne Light Company (DLC) that it plans to construct an expressway from Jefferson Hills Borough to I-376 in Monroeville. The initial construction phases of this expressway begin in Jefferson Hills and end in the city of Duquesne. The construction of this expressway will closely follow the DLC transmission corridor between the Wilson and Port Perry transmission stations and, as such, a number of DLC's existing transmission structures will be impacted and/or displaced.

The PTC has requested that all DLC modifications are completed prior to the start of the corresponding expressway construction phase, the last of which is 3/1/2023.
