

Generation Deactivation Notification Update

Transmission Expansion Advisory
Committee

December 13, 2018

Unit(s)	Transmission Zone	Requested Deactivation Date	PJM Reliability Status
Mansfield 1 and 2 (1630 MW)	ATSI	2/05/2019	Reliability analysis complete. Existing baselines resolve identified impacts. Units can retire per the updated schedule.
Conesville 5 and 6 (810 MW)	AEP	6/01/2019	Reliability analysis underway
Notch Cliff GT 1 - 8 (121.8 MW)	BGE	6/01/2020	Reliability analysis underway
Eastern Landfill Gas (4 MW)	BGE	6/01/2020	Reliability analysis underway
Riverside 8 (20 MW)	BGE	6/01/2020	Reliability analysis underway
Gould Street (98 MW)	BGE	6/01/2020	Reliability analysis underway

Unit(s)	Transmission Zone	Requested Deactivation Date	PJM Reliability Status
Westport 5 (116.8 MW)	BGE	6/01/2020	Reliability analysis underway
Fairless Hills Landfill A and B (60 MW)	PECO	6/01/2020	Reliability analysis underway
Pennsbury Landfill 1 and 2 (5.2 MW)	PECO	06/01/2020	Reliability analysis underway
Southeast Chicago CT 5 - 12 (306.7 MW)	ComEd	6/01/2020	Reliability analysis underway
Bethlehem Renewable (3.7 MW)	PPL	6/01/2020	Reliability analysis underway
Montour ATG (11.4 MW)	PPL	2/18/2019	Reliability analysis underway
