

# Networks Roadmap

As of August 21, 2018

PJM will be performing network maintenance in 2018:

- Update certificate
- Update switch software

	August	September
Certificate Update	<b>Production Implementation:</b> 8/21 	
Switching Hardware	<b>Switch Patches:</b> 8/23, 9/11 	

- The Wildcard Certificate was not implemented due to receiving an incorrect intermediate certificate.
- Prior to implementing the new certificate, it will be rolled out to a test URL first to avoid production issues.

- Verify if your tools trust DigiCert certificates
- If not, download the below certificates and add them to your trust store
  - [Root Certificate](#)
  - [Intermediate Certificate](#)

- There were 3 testing windows in Train done on July 12, 19, & 26
- The certificate was implemented permanently in Train on July 31
- The certificate will be implemented in Production on August 21
