

# Enterprise Security Initiative Roadmap

Sunil Rachakonda  
As of November 20, 2018

Product - Action Required	Deadline	Who May Be Affected
Two-Step Verification: Awareness of new screen during login providing details	11/8/2018	All Tool Users where Two-Step Verification has been implemented
Two-Step Verification: Understand increase of token timeout from 10 to 30 minutes	12/19/2018	All Tool Users where Two-Step Verification has been implemented
		

# Two-Step Verification

- In response to feedback
  - We've introduced a new screen for entering the two-step token
    - The purpose of this screen is to clarify how the process works while the user is using the tool
  - We will be increasing the token timeout from 10 minutes to 30 minutes
- Users do not have to make any changes when these take effect
