	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Offer Verification Enhancement			Train: April 1	◆ ◆ Prod: April 15 (tentative)								

- To comply with FERC Order 831, PJM implemented a verification process for cost-based incremental energy offers above \$1,000/MWh, in early 2018
- The design that was implemented included an opportunity for users to request an exception if their initial offer over \$1000/MWh did not pass the automated verification
- Based on stakeholder input, PJM is improving this exception process
- Current process requires users to fill out an Excel template with relevant offer data, proof of fuel purchase and Fuel Cost Policy information then submit this through SharePoint
- The improved process will allow users to enter this information via Markets Gateway
- Target schedule: Spec. Guide/xsd – March 16, Train – April 1, Markets Gateway User Guide – April 1, Production – April 15 (tentative)

Product Details

[Markets Gateway](#) allows users to submit information and obtain data needed to conduct business in the Day-Ahead, Regulation and Synchronized Reserve Markets.

Key Product Features

- View Market Results
- Manage Generation and Load Response Portfolios
- Manage Ancillary Service Data
- Manage Market Offers and Transactions
