General Updates

As of March 18, 2020

Product	Date	Issue
System Map	**February 27**	Users experienced intermittent issues accessing the system map. PJM resolved this by adding more resources to the server pool.
Data Miner 2	**March 4**	The API was down for several hours due to an issue with the cloud provider's load balancing infrastructure. The cloud provider resolved the issue. PJM is working to improve communication with such issues in the future.
Data Miner 2	**March 10**	Pnode data missing from DA LMP data due to Spring Model Build. Missing data was added and the data was reposted.
RT LMP Posting	**March 12**	March 11 RT LMP posting was delayed due to model build issues. The data was reposted on March 12.
Data Miner 2	**March 13**	Pnode data provided on March 11 and March 12 was not available on March 13. The data for these pnodes was posted in error and was removed for March 13. This data will be removed for March 11 and March 12 as well. A model difference file was provided on March 12.
