Queue Point				◆ Train & Production							
Gen Model				◆ Train and Production							
Competitive Planner											

Legend
- ● Start Date
- ◆ End Date

- Attachment Line Changes

- Generator Step-Up Information

- Enhancements to file upload capabilities

- Give access to Transmission Owners

Product Details

[Queue Point](#) simplifies the way interconnection requests are submitted. It can be used to submit new requests as well as make changes to existing requests.

Key Product Features

- Queue Point replaces the Datasheets application

Gen Model allows generation owners to upload required data for NERC's MOD-032-1 standard.

Key Product Features

- This standard establishes consistent modeling data requirements and reporting procedures needed to develop planning horizon models

- These models are necessary to support reliability analyses of the transmission system

- Queue Point introduced for AC2 queue
  - Initial release supported Attachment N
  - Second release added all other forms
  - Replaced various disparate legacy systems
- Scalable system with enhanced workflow
  - Leverages PJM Tools framework
