- User Certification process
  - For security purposes, PJM is now requiring an annual review of users and their access to ensure that the users who are in the system are continually reviewed and properly authorized for their access by the CAMS.
  - As a part of the "Know Your Customer" effort stemming from the Financial Risk Mitigation Sr. Task Force, PJM will also require a user's relationship be identified with the main account (Member account)

- This item will be released in production but unavailable until June.
- Multiple training sessions will be offered.

- Certify all user relationships to the Member account for Members and Non-Members.

- Certify all user authorization and access for all accounts for Members and Non-Members.

- Certify System Account authorization and access for all Members and Non-Members.

- Schedule

  – Train environment – May 12, 6 p.m. – 8 p.m.

  – Production environment – May 19, 6 p.m. – 8 p.m.

- Impact

  – Account Manager will be briefly unavailable for up to 5 minutes

- eDataFeed production environment will be retired on June 29, 2021 at 12 p.m.

- Please use Data Miner tool.

Product Details

[Account Manager](#) is used to create accounts and request and grant access to PJM's tools and website.

Key Product Features

- Grants access to PJM Tools

- Member CAM's can determine and regulate access for their respective companies

[Bulletin Board](#) facilitates power contracting activity.

Key Product Features

- Provides users with access to a larger pool of buyers and sellers of contracts for electric power

- Allows users to view, post and modify requests to buy or offers to sell power

[Data Viewer](#) allows users to view operational and market data graphically.

Key Product Features

- Display real-time LMPs, IT SCED forecasted LMPs, Dispatch Rate, etc.
- Customizable data plots and graphs

[eDataFeed](#) is a web service that allows subscribers to select and "stream" PJM locational marginal price data, as well as some operational data directly into their system. eDataFeed delivers information in a format called Simple Object Access Protocol (SOAP) that enables data capture, analysis and decision support to meet the trading, risk management and business decisions of PJM's members (customers).

Key Product Features

- Allows for automated data retrieval

[Messages](#) provides updates and important messages regarding PJM tools.

<u>Key Product Features</u>

- Used by members to view updates and important messages regarding PJM tools

Resource Tracker provides generation owners a single view of generator ownership information as recorded across various PJM applications.

Key Product Features

- Single point mechanism for generator ownership information
  - Ownership changes
  - Energy, Capacity and Ancillary Service Ownership
  - Marketing Company
  - Dispatching Company
- Annual confirmation period

Voting facilitates voting at the Markets and Reliability Committee and Members Committee meetings.

Key Product Features

- Facilitates voting at the Markets and Reliability Committee and Members Committee meetings

- Vote tallying and reporting

- Tool also allows both on-site and remote meeting attendees to cast votes for agenda items presented to the membership for voting
