- Expiration will be enabled for each secure area by end of Q2
- Notification will be sent before access expires

Area	Action Required
Secure areas requiring CEII authorization	Use the renew option to keep access

1. Email reminder sent before expiration

3. Click *Request Access* button

Home ► Sign In to My PJM ► Request Access

Request Access

The page you have requested requires additional access that you do not currently have. Click the Request Access button below to proceed with requesting the access. Certain access may be granted automatically, but other access may require additional steps. You will be contacted via email or phone if additional information is required to complete these steps. If you request access to a secure area and are granted the access, you have to sign back out and sign in in order for the access to show up.

- User Interface Standards -

Account Updates

Hello Tawnya,

Your access to **My PJM User Interface Standards** secure area will **expire** on December 12, 2021. To renew your access, visit the secure area linked on the page below, sign in with your account gought1212 and click *Renew Now*.

https://www.pjm.com/mypjm.aspx

User Interface Standards

This section of the website provides user interface standards for development, testing and maintenance of the following PJM websites and tools:

- Data Viewer will be redesigned to improve the mobile experience and improve customization.

- DataSnapshot.pjm.com retiring at the end of 2022

- Improvements to help narrow down content more accurately and quickly

- Implementation planned in 2022

- PJM will retire obsolete TLS protocol configurations:
  - TLS 1.0 protocol
  - TLS 1.1 protocol
  - Certain insecure ciphers, such as 3DES cipher and the TLS_RSA_* ciphers in TLS 1.2.
- Update the non-compliant source device (browser or browserless) deployments, so that obsolete TLS protocol configurations can be updated expeditiously or disabled. Review the Weak Encryption Remediation Guide.
