Legend

-  Start Date
-  End Date

Fix for reported issue where a logged in user cannot create or view user profiles.

Functionality to allow users to test email setup for user profiles.

- Users can request a confirmation email from EP at any time.
- Useful for confirming EP emails are not going to Spam/Junk folders or otherwise being blocked.

Automatic update of user profiles when new Regions or Message Types are added to EP if the user already has all related regions and Message Types selected.

Update to Subject of EP Emails

- Current: Emergency Procedures (ENV)
 - ENV = environment: PRD for Production or TRN for Training
- New for PRD: PJM–EP: Event Message Type - Status (PRD)
- New for TRN: (TRN) PJM–EP: Event Message Type - Status

Secure Data in Postings

- New section of Postings for PJM to enter data that should not be shared with the general public e.g. Control Room phone numbers.
- Logged in users will see this data and receive the data via email.
- Guest users will not see this data in the posting.

High level summary of postings active per day.

Applicable for postings with the following priorities: Action, Alert, Warning and Advisory

Maximum search duration = one month.

Product Details

The Emergency Procedures tool informs PJM members, PJM personnel and other interested parties about important and/or emergency events as they occur within the PJM Regional Transmission Organization (RTO). Examples of emergency events include hot weather alerts, transmission loading relief (TLR) procedures and minimum generation events.

Key Product Features

- Allows PJM dispatchers and reliability coordinators to post emergency procedures messages for all to see.
- User access, which permits email notification setup, to Emergency Procedures is available in Account Manager.
 - Guest access is also available via the Guest Sign In.
