NOTE: New PJM CLI jar file available for use with Single Sign-On (SSO)

- Version 1.5.6: <https://www.pjm.com/markets-and-operations/etools/system-requirements>
- Additional details available in [presentation](#) from 6/14/2023 eDART XML Forum

Enhancements (Train and Prod TBD)

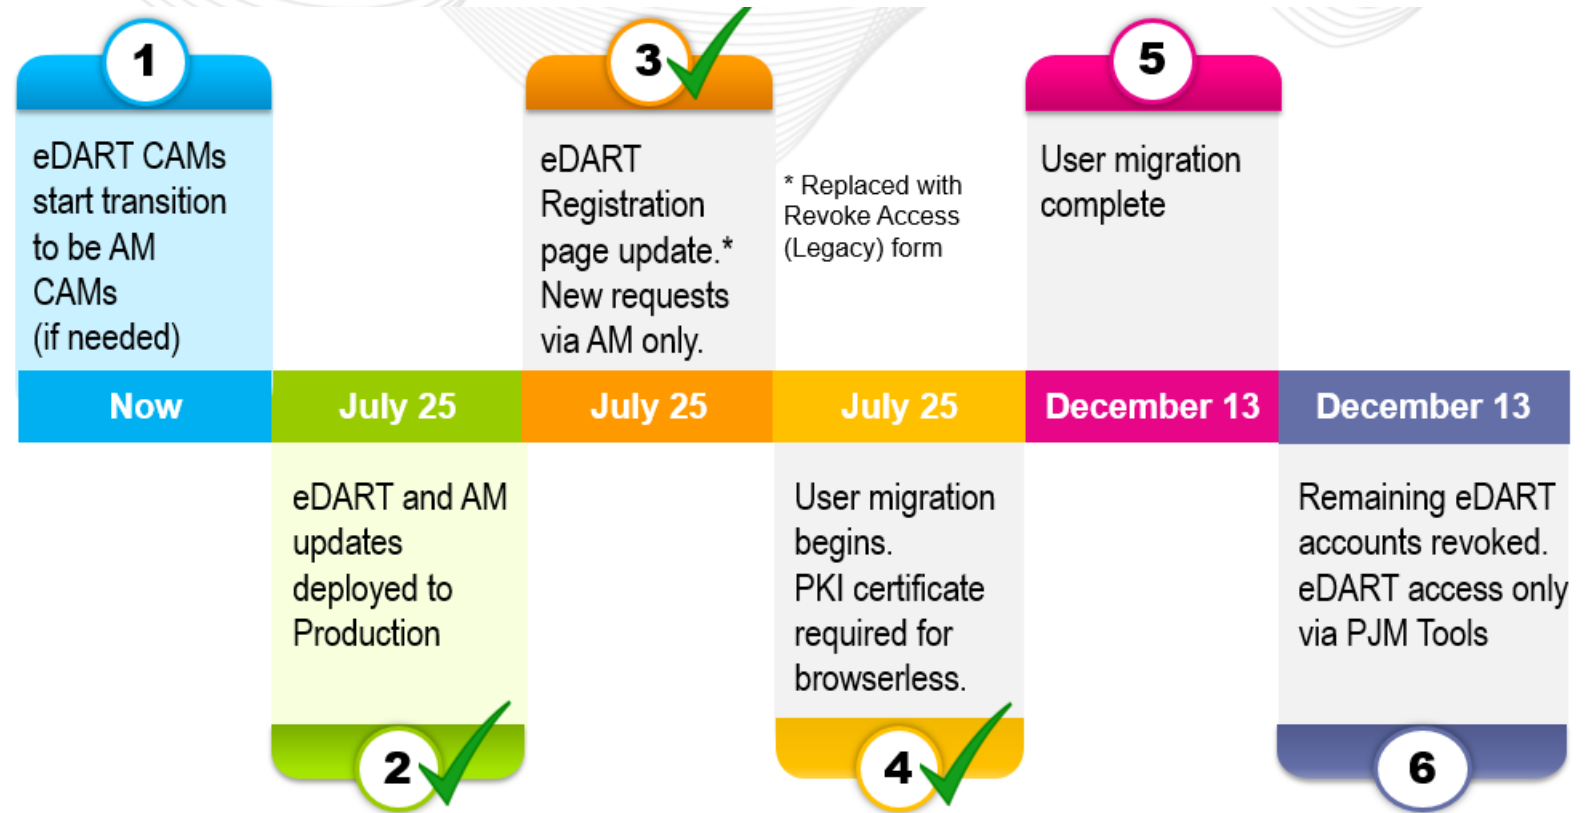

- New parameter to be added for CDW Agent user to specify which CDW Member the Dart browserless call is for.
 - Parameter = cdwshortname
 - Value = short name of the CDW Member
 - By default, Dart browserless call will be made for CDW Agent
- XML File Download from UI Instead of UI Display
- Address internal and backend changes

Future Release (Train-Q4/2023)

- Enhancements to TERM application in response to FERC Order 881 (Q4/2023-2025)

Migration of eDART users to Account Manager is currently underway (7/25/2023 – 12/13/2023):

- [Migration to Account Manager Guide](#)
- [Revoke Access \(Legacy\)](#) – submit for users who will not migrate to Account Manager
- [Migration to Account Manager FAQ](#)
- [Presentation](#), 9/14/2023 eDART Forum

Communication will be sent out for each milestone

As of: 11/09/2023	
Companies in eDART	761
eDART Accounts*	7959
eDART Accounts in AM	1467
% Complete (All time)	18%
% Complete (Active last 90 days)	25%

** Account numbers change during migration period (e.g., includes accounts that may not be migrated)*

Migrated users...

- Can only log into eDART via PJM Tools
 - Train: <https://edartssotrain.pjm.com/edartsso>
 - Prod: <https://edartsso.pjm.com/edartsso>
- Can use Single Sign On to log into eDART
- Will require PKI certificate for browserless interaction with eDART (if the user/system account does not already have one)
- Should contact their company CAMs for password resets and unlocking accounts

At the end of the user migration period, accounts that remain in eDART will be revoked

On 12/13/2023, active accounts remaining in eDART Legacy will be set to 'Access Revoked' status, and users won't be able to access eDART Legacy:

- Users in Access Revoked status unable to
 - Create Generation/Transmission/TERM tickets,
 - Respond to Gen Checkout/Data Requests/IRC/RRC, and
 - View reports in eDART
- Any scheduled processes/job extracting eDART data will be interrupted, potentially disrupting member company processes dependent on that data
 - Users can log directly into eDART to retrieve needed data

With the eDART account migration to Account Manager (eff. 7/25/2021), PKI certificates are required for all browserless communications

For eDART:

- PKI is required if accessing eDART via PJM-CLI (browserless)
- PKI is not required if accessing eDART via UI
- PKI is not tool-specific, therefore certificates already set up for use of other PJM Tools can be applied for eDART browserless usage

For more information, see [PJM Security](#) home page:

- PKI Certificates and PKI/Two Factor Browserless/API [FAQs](#) (PDF)
- PKI Authentication [Guide](#) (PDF)
- Exporting Public Keys [Guide](#) (PDF)

- eDART is a suite of tools and, as such, has a security configuration that is not compatible with SUMA
- After extensive consideration and technical evaluation, eDART will not be SUMA-enabled similar to other tools
- Consider eDART CDW for SUMA-like experience
 - See [Unit-Task](#) or [Member-Agent](#) presentations for overview of functionality
 - Contact eDARTHelp@pjm.com to request CDW demo

Revisions to the *pro forma* Open Access Transmission Tariff (OATT) and the Commission's regulations under the Federal Power Act to improve accuracy and transparency of electric transmission line ratings.

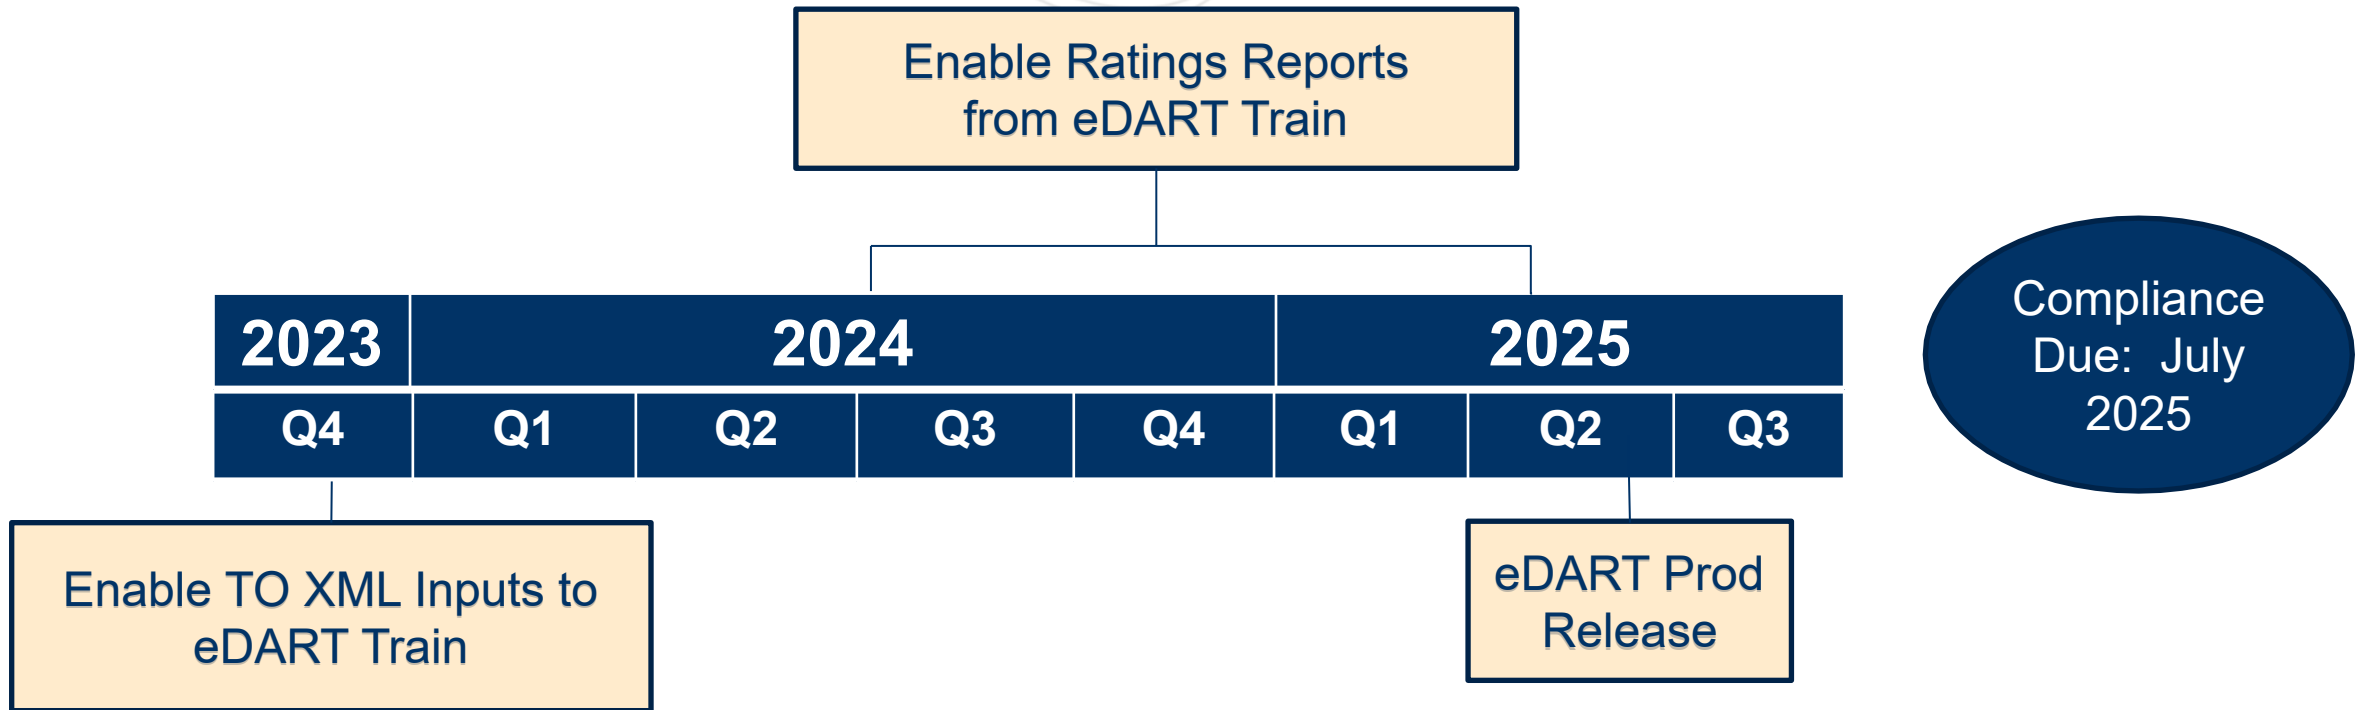

- Impacts eDART TERM Application
- eDART Project underway
- Compliance due July 2025

Deliverables:

- Functionality to submit and view ratings lookup tables
- Functionality to manage AAR exceptions and TO Methodology
- AAR Seasonal rating functionality
- Ability to pull ratings for the Operations Time Horizon for all eDART users
- Enhancements available in Train only
 - CLI to support current and new functionality
 - UI updated to reflect new functionality
