# Major Webex Updates/Changes

As of 8/8/2024

➢ Meeting options that were once at the top menu bar will be contextual and distributed across different locations in-meeting software.

➢ The meeting chat interface will be different where participants can edit font text, respond with reactions, and chat directly @ individuals.

➢ Participants who join Webex Meetings from a browser will experience a new interface that is similar to Webex app users.

➢ Cisco is also removing an option to delete files that are loaded into the Webex.

Action Required	Target Date	Who Will Be Affected
No Action Needed	**December**	All participants who join or attend Webex Meetings hosted by PJM.
