Energy Market

The PJM Energy Market procures electricity to meet consumers' demands both in real time and in the near term. It includes the sale or purchase of energy in PJM's Real-Time Energy Market (five minutes) and Day-Ahead Market (one day forward). Learn more about the [energy market](#) at the Learning Center.

Real-Time Energy Market

- 7-Day Load Forecast
- Hourly LMP Files: [Daily](#) | [Monthly](#)
- Marginal Fuel Type Data
- Hourly Load: [Preliminary](#) | [Estimated](#) | [Metered](#)
- Export Credit Screening: Nodal Reference Prices [CSV](#)
- Learn more [PDF](#) about export credit screening.
- Causes of Recent Reactive Service Charge [XLS](#) 2.6.2015
- External Interface Price Definitions [XLS](#) 5.5.2009
- Forecasted Interface Prices**

Market Reports

MISO Market Reports offer analysis and status of market operations related to all aspects of real-time and day-ahead energy and ancillary services markets and reliability coordination for the region.

Please refer to the appropriate [Readers' Guide](#) for a complete description, including the purpose and information contained in each report. Access Monthly and Seasonal Analysis Reports from the [Market Analysis](#) page located under the Markets and Operations tab.

If you would prefer not to come to our site every day to download a report, use our [Market Report Directories](#) to set up automated tools to extract market reports.

Use the Search form below to retrieve market reports generated within the last two years plus the current year. If you are not sure what report you are looking for, view our [list of all Market Reports](#) before performing your search. If you are looking for something older, browse the [Market Report Archives](#).

Search Tips

- Select a **Report Type** but leave all other fields blank to return all files for a particular report type.
- Select a **Report Type** and enter the **Report Name** or a subset of the **Report Name**. For example, selecting *Historical LMP* from the **Report Type** drop-down and entering *Day-Ahead Market LMPs* will retrieve only the files for that particular report.
- Wildcards (i.e. *, %) will not work in the **Report Name** field, however, the search will work on partial names. The search is not case sensitive.
