Batta	Mike	Virginia Electric & Power Company
Walter	Laura (Secretary)	PJM Interconnection

1. ADMINISTRATION

The agenda for the Teleconference was reviewed and adopted.

CDTF Chair, Stan Williams, reviewed Antitrust Guidelines.

2. VARIABLE OPERATIONS AND MAINTENANCE (VOM)

The Independent Market Monitor presented a proposal that called for the removal of major inspection and overhaul expenses for combustion turbines and combined cycle units from maintenance adders in order to allow cost recovery through the avoidable cost rate (ACR) within RPM. The proposal was motioned and

seconded and a vote was taken. There were 5 votes in favor, 34 votes opposed and 6 abstention votes. The PJM IMM is developing a problem statement for review by the CDTF on this issue for discussion at the January 31, 2011 meeting of the CDTF.

3. FUTURE MEETINGS

Monday, January 31, 2011	10:00 am until 2:00 pm	PJM Interconnection Offices
