

Update on Order 745 (Docket ER11-4106-000, DR compensation is energy market) and associated next steps

DRS
3/16/12

- Reinstate existing compensation (LMP – G&T) and cost allocation (to LSE of record for end use customer) rules when $LMP < NBT$
- Cost allocation to LSE and RT export where LMP is $\Rightarrow NBT$ instead of PJM filed " $> NBT$ "
- Guidelines governing PJM's unilateral right to set a CBL when PJM and variable load cannot reach an agreement.
- Clarify requirement for 60 days of load data for residential and small commercial customers that are part of DLC program.
