

# Load Management Test Events - Web Service Notifications

DRS

April 18,2018

- Few actual Load Management events
  - Low frequency/High impact
  - Lack of exercise, personnel turnover, inexperience, etc.
  - Rust sets in
- Allows for more exercise of PJM/CSP event communications
- CSP initiates Test Events through existing DR Hub Test Event functionality

# Schedule Test Event Same as Always (nothing new)

Cancel **Save**

Event ID

Event Type **Load Management Test** Status Scheduled

Event Date **06/06/2018** Product **Annual DR**

Start Time **13**:00 Duration 1 Hour

CSP Zone **BGE**

# Test Event Day – Timeline (this is new)

- 11:00
  - Long\_120 lead time registrations receive event notification via web services
    - CSP acknowledges receipt via web services
- 12:00
  - Short\_60 lead time registrations receive event notification via web services
    - CSP acknowledges receipt via web services
- 12:30
  - Quick\_30 lead time registrations receive event notification via web services
    - CSP acknowledges receipt via web services
- 13:00 Test event starts
- 14:00 Test event ends
  - All lead time registrations receive event end notification via web services
    - CSP acknowledges receipt via web services

**PJM plans to implement this functionality for Test Events only NOT Retest Events**

- Discuss at DRS March/April
  - Take in stakeholder feedback
- Software development and testing – June/July
- Deploy in Train - August
- Deploy in Production - September
