PJM reviewed updates related to the 2018 PJM Operator Seminar:

- In 2018, PJM is looking to grow the item banks for the PJM Certification exams. To help with this initiative, PJM will be hosting an Item Writing Workshop and Contest at this year's seminar. This is an opportunity for all interested individuals to play a key role in enhancing the certification program at PJM. More details about the contest will be shared during the seminar. An optional Item Writing Workshop will be held on Day 1, beginning at 11:00 AM. No registration is necessary.

8. **Upcoming Training Items for Review (9:30 – 9:35)**

- NERC Survey Update
  - NERC is extending the deadline to respond to their survey related to the NERC certification and continuing education programs. An updated email was sent out and the link was added to the NERC website. Participation is open to all active participants in either program.
- Task 6 Reverification – Transmission Owner Operators – due **March 1, 2018**
  - Reminder that the Task 6 Reverification is due on March 1, 2018, for all Transmission Owner Operators. This reverification was triggered by the update to the RRC tool. There is a Just-in-Time training module available in the PJM Learning Management System (LMS) that reviews the applicable changes. This training is optional, but may be included as part of your reverification process. As a reminder, PJM Manual 40 provides guidance on means of task verification, including: direct observation, simulation, and/or combination of training and some other means of assessment. For more details, please refer to PJM Manual 40. For questions, please contact [Maureen.Curley@pjm.com](mailto:Maureen.Curley@pjm.com).
