- For those coming to Milford:
 - Please send the names of those coming so we can notify security
 - Include the time you expect to arrive, drills usually start around 0700-0800
 - You'll be met at the security office
 - Let us know if you need directions and/or hotel information
- For those conducting the drill at your location
 - Let us know when you plan to start
 - We'll send the names of the PJM operators that will be attending
 - Are there any special security needs for our operators?
 - Please provide the address where your drill will be held
 - For those that are further away please provide some local hotels

- Restoration Objectives:
 - Restore critical load
 - Identify any opportunities for top down restoration
 - Connect to outside areas
 - Return to normal operations

- SharePoint will be used for both Milford and Company location drills
- If someone is participating in the drill that has not used SharePoint, we'll need their Account Manager user ID to give them access
- We will be posting the drill packet on the DTS webpage in the next few weeks, with links to SharePoint, the Participation Form and the Evaluation Form
- All other forms will be via SharePoint

- Online System Restoration Drill Refresh will be available late September
