Working Issues

1. FERC Order 825 – Discussion on Sub-Hourly Settlements

Mr. Thomas Zadlo, PJM, discussed Data Miner 2 impacts and timelines for implementation. Open Beta testing is available now, and a production release is scheduled for August, 2017. All flat file postings on pjm.com will be removed and discontinued in August, 2018. Five Minute Settlement LMPs will only be available via Data Miner 2. Please email DataMiner2Support@pjm.com with any questions or comments.

Mr. Sean Flamm, PJM, provided an update on the MSRS Reports impacted by Sub-Hourly Settlements. During discussions, it was agreed upon to keep the Day-Ahead and Real-Time Generator LMPs together at the hourly level on the Generator LMP Charge Summary report. Sean mentioned that Online/Crystal Report files will not be supported for any new or updated sub-hourly reports. PJM will continue to communicate all report documentation updates to the Market Settlements Subcommittee distribution list.

Ms. Monica Burkett, PJM, provided a walk-through of the [Tech Change Forum Community](#) and detailed how members can access and use the Five Minute Settlements discussion board to ask or answer any questions.

PJM will continue to provide education on this working issue. Please email mss@pjm.com with any additional questions or comments related to Sub-Hourly Settlements.

Miscellaneous Settlements Items

Mr. Ray Fernandez, PJM, provided an update on the Limitation on Claims tariff change, Preliminary Balancing Congestion Credit Rate posting, and Pseudo-Tie Generators and Dynamic Schedules Meter Error Correction.
