There are no manual updates to review at this time.

2) PJM Compliance Activities:

b. NERC Standard Drafting Team Vacancies

[Home](#) > [Program Areas & Departments](#) > [Standards](#) > [Review and Drafting Team Vacancies](#)

Review and Drafting Team Vacancies

Additional subject matter experts are occasionally sought for project review and drafting teams. Participation on these teams provides stakeholders an excellent opportunity to become familiar with the standards development process, play a pivotal role in improving electric reliability, and interact with industry peers.

Industry stakeholders can nominate themselves or others for consideration by the Standards Committee. By submitting a nomination for a review or drafting team, you are indicating your willingness and agreement to actively participate in the standards development process and in team meetings. If appointed by the Standards Committee, you are expected to attend most of the face-to-face meetings as well as participate in the meetings held via conference call.

The [Standard Processes Manual](#) provides more information on the process and review/drafting team participation.

Previous review or drafting team experience is beneficial, but not required. A brief description of the desired qualifications, expected commitment, and other pertinent information is included on the project page and the nomination form, which can be accessed via the links below.

Project Name	Links	Dates
None at this time

2) PJM Compliance Activities:

c. PJM's Member TO Compliance Contacts (Mr. Moleski)

The screenshot shows the PJM website's Compliance page. The left sidebar contains a navigation menu with the following items: Governing Documents, Filings & Orders, Manuals, Compliance (selected), Compliance Bulletins, Reports & Notices, Maps, Request for Access, and Fact Sheets. The main content area has a breadcrumb trail: Home > Library > Compliance. Below the breadcrumb is the heading "Compliance" in orange. The first section is titled "Reliability Standards & Compliance Subcommittee (RSCS)". The text states: "PJM works to ensure ongoing communication with our Members on the status of our compliance and on all compliance related activities through these". Below this text are three links: "RSCS Overview" (with a WEB icon), "RSCS Charter" (with a PDF icon), and "RSCS Workplan" (with a PDF icon). The next paragraph says: "To join this subcommittee and it's email list, go to the [Roster & Mailing Lists Updates Form](#), and enter contact information and "Reliability Standards & Compliance Subcommittee" in the committee rosters field." The second section is titled "Open Compliance Letter". The text states: "PJM members are often challenged when it comes to providing adequate proof of compliance to the Standards that require them to provide data to, or follow the directives of PJM. To facilitate this effort, Mark Holman, Manager of PJM's NERC and Regional Coordination Department has authored an [open letter](#) (with a PDF icon) to the SERC Reliability Corporation, and the ReliabilityFirst Corporation. This letter contains details that our members may find useful when gathering proof of compliance for their audits." The third section is titled "Entity Contact Information". The text states: "Recently approved standards required Generators Operations, Distribution Providers, Transmission Owners and Transmission Operations to document their contact information with each other. As this may be a challenge for smaller entities, PJM has assembled the lists below to aid with their compliance. Please report any gaps or errors to [Regional Coordination](#)." Below this text are three links: "Transmission Owner" (with a PDF icon), "Distribution Provider" (with a PDF icon), and "Generator Operator" (with a PDF icon).

2) PJM Compliance Activities:

- d. PJM's interaction with RF on TOP-001-4 R20 and R21 (Mr. Holman)
- e. Review Draft 2019 RSCS Meeting Schedule (Mr. Moleski)

FERC, NERC, and Regional Compliance Activities

3) FERC, NERC, and Regional Activities

- a. Committee Updates (Mr. Holman)
- b. Standards Under Development (Mr. Walker)
- c. Proposed changes to the Standard Processes Manual (Mr. Seelke)

Member Issues and Future Agenda Items

Thank You!
