

NERC GADS has released a new Design Data template to conform to their new Section 1600 data request.

Few things to note:

- It is the responsibility of the Generator Owner to complete the data request, as well as review the Units and Contacts in the NERC OATI WebPortal. Entities that have assigned PJM as Designated Reporting Entity (DRE), will still need to submit the requested data on their own behalf.
- PJM will NOT be able to submit any quarterly data submissions until these requests are completed.
- NERC GADS Design data will not be required for miscellaneous, nuclear, geothermal, or multi-boiler/multi-turbine units. However, review of Contacts and Units in the NERC OATI WebPortal are still required.
- Design Data instructions and template can be found on the NERC GADS website:
 - [https://www.nerc.com/pa/RAPA/gads/Pages/GeneratingAvailabilityDataSystem-\(GADS\).aspx](https://www.nerc.com/pa/RAPA/gads/Pages/GeneratingAvailabilityDataSystem-(GADS).aspx)
- NERC OATI WebPortal:
 - <https://www.nerc.oati.com/nerc/sys-login.wml>
- For more NERC GADS information or assistance with OATI, please contact GADS@nerc.net.

GADS 2024 Reporting Deadlines

The Q1 2024 and Q2 2024 reporting deadlines for NERC GADS have been extended to coincide with the Q3 2024 reporting deadline (November 15, 2024) to provide additional time to complete the new reporting requirements. **PJM requires that the Design Data has been completed, and contacts and units have been reviewed by October 31, 2024.** Entities are encouraged to participate in training and begin reporting shortly due to the detailed information that NERC is requesting.

For any further information, please contact gadssupport@pjm.com.
