

Potential Technical Workshop Survey

David Anders, PE
Director, Stakeholder Affairs
AFMTF Technical Workshop
January 11, 2022

Purpose: Help guide the future direction of the Workshops

1. Given the understanding of the benchmarking data, and assuming implementation of one of the proposals endorsed by the MIC, regarding the currently available ARR/FTR products, are you comfortable with the “status quo” ? (Y/N/A)
2. Given the understanding of the benchmarking data, are you in favor of the AFMTF pursuing additional ARR/FTR products? (Y/N/A)
3. Regarding the Annual ARR/FTR products,
 - A. Should the annual product be retained (i.e. retain the “status quo”)? (Y/N/A)
 - B. Should the annual product be converted to seasonal products? (Y/N/A)
 - C. Should the annual product be retained and seasonal products be added (recognizing that fewer rounds would be required)? (Y/N/A)
4. If you do want the AFMTF to pursue additional or alternate ARR/FTR products, what types of process changes should the AFMTF pursue to simplify conduct of auctions with the goal of allowing additional products?
 - A. Adjustment to the structure of the auction (e.g. number of rounds) (Y/N/A)
 - B. Adjustments to the ARR allocation process (Y/N/A)
 - C. Modifications to overlapping periods (Y/N/A)
 - D. Please add any other suggested changes (open text box)
5. Please add any other comments (open text box)
