

CCSTF Discussion

Melissa Piong
Sr. Analyst, Performance Compliance
Capacity Capability Senior Task Force
April 7, 2020

1. Timing of ELCC analysis for a given year
2. Allocation of ELCC capability of a fleet to a units: marginal vs. legacy vs. average
3. ELCC variations: “load” style vs. “gen” style, etc.
4. Dispatch of limited-duration and Energy Storage Resources
5. Translating ELCC analysis into an ESR capability policy: duration classes vs. value of a MWh vs. etc..
6. Accounting for actual performance/availability
