

Energy Market Uplift Senior Task Force
PJM Conference and Training Center
April 17, 2015
9:00 a.m. – 12:00 p.m. EPT

Administration

1. Mr. Dave Anders opened the meeting and reviewed the agenda.
2. Ms. Cheryl Mae Velasco performed roll call, reviewed the meeting guidelines, and reviewed the draft meeting minutes. Minutes were approved and will be posted as final.

Review Open Action Items

Mr. Anders reviewed the remaining open action items from Phases 1 and 2. No further updates were made.

Backcasting of Rates Analysis

Mr. Anders reviewed the results of the poll that was used to determine which packages would be used to perform the backcasting of rates analysis on. The packages that received the highest amount of votes were package H (PJM), package M (PJM), and package L (AEP). PJM staff will work with AEP in order to iron out the details of the package and perform the analysis with the correct parameters. Concern was expressed regarding voting on the packages if only a select few have significantly more data than the others. However, the group previously agreed on conducting the poll since there were far too many proposed packages to perform an analysis on all of them. The results of the analysis will be presented at the next meeting.

CT Lost Opportunity Cost

As directed by the Markets and Reliability Committee, the group was asked to further discuss the CT lost opportunity cost proposal that was previously endorsed at the February 25th EMUSTF meeting. Dominion brought forward a friendly amendment regarding startup costs for units that were operating for any portion of their Day-Ahead commitment. ODEC brought forward a friendly amendment changing the proposed criteria of using minimum run time of two hours to five hours when determining eligibility of LOC payments. All proposed tariff language with friendly amendments will be presented at the April MRC meeting.

In Attendance (In Person):

Anders, David	PJM Interconnection, LLC	Not Applicable
Bresler, Stu	PJM Interconnection, LLC	Not Applicable
