Peaking Shaving in Incremental Auctions

- Increases reliability – another “tool in the tool box” if zonal load requirements increase unexpectedly.
- Provides a potential market for peaking shaving programs during the transition period from one plan to another
- Enhances “fuel security and diversity”.
- PJM BRA timeline does not align well with State planning timelines.

PA Peak Shaving Timeline – Phase 3 [2016-2020]

<u>Date</u>	<u>Activity</u>
11/14/2013	DR Potential Study released for comment
