

## MEETING NOTICE

### AMP Transmission, LLC Annual Projection Formula Rate Meeting To Be Held on December 11, 2018

#### To All Interested Parties:

On November 1, 2018, AMP Transmission LLC ("AMPT") and PJM Interconnection, LLC ("PJM") jointly filed with the Federal Energy Regulatory Commission ("FERC") a proposed formula transmission rate template ("Template") and formula rate implementation protocols ("Protocols") for AMPT-owned integrated transmission facilities in PJM. That filing is pending in FERC Docket No. ER19-263-000 and is available online at the following URL:

<https://www.pjm.com/directory/etariff/FercDockets/3839/20181101-ER19-263-000.pdf>

AMPT's filing also includes a projected transmission revenue requirement ("Annual Projection") for calendar year 2019 for AMPT-owned facilities in the ATSI Transmission Zone of PJM. AMPT's filing requested that its Template and Protocols be made effective on January 1, 2019. Although the November 1, 2018 filing has not yet been accepted or made effective by FERC, AMPT stated in the filing that it would comply with the procedures applicable to its 2019 Annual Projection for the ATSI Zone as though the Protocols were in effect. Accordingly, AMPT hereby provides notice that it will host the Annual Projection Meeting provided for in section 1.d of the Protocols in order for AMPT to explain its Annual Projection and to provide Interested Parties an opportunity to seek information and clarifications regarding the Annual Projection.
